

Grenatur®

**OSB (Oriented
Strand Board)**

OSB (Oriented Strand Board)

SPECIAL GRADE

Grenatur® OSB (Oriented Strand Board) is made from natural logs of Scandinavia. It is manufactured by adding adhesives and applying immense pressure to wood strands layered in specific orientations. Due to its impressive mechanical properties that outperform that of plywood, Grenatur® OSB is widely used in load-bearing applications in construction. It is also popular as interior furnishings thanks to its unique natural appearances and warm Scandinavian aroma.
